EDUCATION

Amity University Uttar Pradesh

Bachelor of Technology(Computer Science and Engineering)

- CGPA: 9.06; Awarded for Excellence in Knowledge Creation

Lucknow

September 2020 - September 2024

WORK EXPERIENCE

Stratbeans Consulting Pvt. Ltd.

Software Developer - Intern

Remote

January 2024 - Present

- Worked on Bytecasting Evolve, a robust Learning Management System(LMS) built on Laravel and extended by the company's internal classes. My primary project involved working on developing the SFTP dealer and user upload and Tag Group component. Moreover handling client-specific requirements for Fitelo, TVS Sales and C3 India.
- Contributed on frontend tasks using Angular.js and CSS, performed load testing, wrote laravel dusk test cases and collaborated closely with senior developers to interpret and implement LLD and HLD requirements.
- Communicated closely with QA and BA teams to resolve issues and identify requirements respectively for a smoother progression from QA to UAT to completion.

KnotHastags

SDE Intern

Remote

August 2023 - January 2024

- Worked on the in-house E-Commerce platform of the company built on React, Chakra UI and Strapi CMS.
- Contributed in UI component design and development from the ground up.
- Effectively communicated with the backend team to understand the expected workflow.

Edfling

React Intern (SDE)

Remote

July 2023 - Sep 2023

- Collaborated with cross-functional teams to execute UI/UX designs into functional implementations and optimized the User Experience overall. Assisted in troubleshooting and resolving development issues, ensuring smooth project progression.
- Provided support and guidance to team members, fostering a collaborative and productive environment.

ACHIEVEMENTS

Medusa Js Hackathon

October 2022 - November 2022

- "Burger Hat" became the winner of the Medusa Js hackathon in the Best Design category.
- Burger Hat is a fictional Burger Restaurant web app built with Next Js, Tailwind CSS, PostgreSQL and Medusa Js.
- The project is available at <https://github.com/realanupreet/burgerHat>.

PROJECTS

Portfolio Website

January 2022 - February 2022

- Designed and developed a website using HTML, CSS, JavaScript, Bootstrap, and AlpineJS.
- Leveraged AlpineJS for interactive components and efficient data retrieval from a JSON file, enabling effortless addition of projects without HTML editing. Incorporated AnimeJS for seamless animations and micro interactions.
- Project URL: <https://realanupreet.github.io/>.

Note Taking Web App

January 2022 - February 2022

- Created a user-friendly note-taking web app utilizing local storage for efficient data management.
- Integrated with a focus on effective note-taking techniques.
- The project is available at <https://github.com/realanupreet/deliciousNotes>.

POSITIONS OF RESPONSIBILITY

ALiAS (Amity Linux Assistance Sapience)

Core Member & Volunteer

Amity University

October 2020 - Present

- Actively participated in organizing diverse club events alongside teammates and other volunteers, contributing to their success through dedicated teamwork and commitment. Provided assistance to fellow students, addressing Linux-related queries, and fostering a vibrant campus community of technology enthusiasts. Drive an increase in club membership under our collective leadership.
